THE FORD CO. REPUBLICAN, ESTABLISHED 1886.

DODGE CITY, KANSAS, THURSDAY, APRIL 5, 1906

THIRTIETH YEAR, VOL. XXIX, NO. 26

THREE COUNTIES

REPRESENTED IN BOARD OF
DIRECTORS OF FARMERS
ELEVATOR COMPANY

OFFICERS HAVE BEEN ELECTED

Institution Will be a Valuable
One to the Community.
Work to Begin
Soon

The Farmers Elevator company, at its meeting held on Saturday completed the organization, elected officers and has applied for its charter. Over \$5,000 has been subscribed and the affairs of the new company are in excellent condition for getting into business at an early date.

The board of directors elected comprises men from three different counties so that the institution has interested in its success a large wheat territory.

The directors elected are J. D. Brown, chairman, J. K. Sayre, F. E. Spicer, J. B. Groniger, Mike Shoen, Daniel Jones, Fred Prather, secretary, Herbert Wing and W. H. Gould.

The following officers were elected: J. K. Sayre, president; Nio Mayrath, vice president; Fred Prather, secretary.

One half of the money subscribed is to be paid in this week, and the charter is expected to arrive soon, and then the company will be ready to start on its building.

The site secured is a splendid one and contains a plot of ground 400x600 feet. On one side of it is the Rock Island track and on the other is the Santa Fe track and privileges will be afforded from the two roads.

Enough wheat growers are interested in the company to furnish a good business without getting grain from outsiders, but the company will be in the market for all who care to sell to it.

Many more will probably be taken into the company as it is desired to have the stock owned by as many different wheat raisers as possible.

John Rapp Jr. of Kinsley wrote to Mr. Russell of this place yesterday to secure him \$100, worth of the stock. Mr. Rapp owns some wheat land in this county and believes that the farmers company will be a good thing, and takes this plan of endorsing it.

You will hear a good many people remarking that Dodge City has a mighty good marshal. When they say that, they are right, and it sounds good to hear them say it. John Madden is one of the best City Marshals that is possessed by any town in Kansas and he ought to be given full credit for the good work he has done. He is the most impartial officer that any town ever had. When he sees any thing going wrong he steps in promptly and objects, and when he objects he means business. There is not a business man in town who can smash city ordinances and square it with John Madden. He would arrest the mayor if occasion called for it. He would put his mother-in-law in jail, if he had one and she should raise a disturbance. They all look alike to John, and they look good only when they are acting good. A man who can not walk a chalk mark does not get a very big start in Dodge City at present, and there are a hundred little things a day that the city marshal does which are not much of themselves, but which show that he is on the alert to keep the town orderly. These things are not said because John is dead, for he isn't, and so far as the writer knows he is not running for office. The office of city marshal in a small town is a thankless job and there is not much pay in it, and when an officer fills his place so thoroughly as John Madden has, this paper believes that attention should be called to it.

CITY ELECTION.

Was a Quiet Affair but Fourth Ward "Started Something."

The fourth ward is the "foxy" ward of Dodge City. At the election held last Tuesday the first, second and third wards each cast a few ballots for the tickets as printed and let it go at that.

The fourth ward, however, yearned for a little excitement and a few seeing that the vote was to be very light put up a job on Jack Lillis, who was the fourth ward nominee for member of the board of education.

A number of voters wrote in the name of P. H. Young and he was elected. Mr. Lillis had gone to the country to try a sale totally unconscious of the fact that there was to be anything doing.

The ticket as elected is as follows: First ward—council, F. S. Brumbaugh; school board, J. S. Elliott.

Second ward—council, Dr. C. A. Milton; board of education, long term, N. B. Klaine; short term, H. A. Burnett.

Third ward—council, W. H. Jacoby; board of education, W. T. Coolidge.

Fourth ward—council, W. J. Fitzgerald; member of school board, P. H. Young.

FRED STINEMAN DEAD.

His body was brought to Dodge City for burial and the funeral was held from the Presbyterian church here yesterday afternoon.

Mr. Stineman was well known in Ford county. He leaves a son and three daughters, O. H. Stineman of this county, and Mrs. M. M. Wolf, and Misses Ella and Celeste Stineman of Arkansas City. He was a member of the Grand Army Post here and the pall bearers at the funeral were selected from the members of that body.

Bids Wanted.

Up to 12 m. April 14, bids will be received by the board of highway commissioners of Royal township for the building of two concrete piers at the Sawing crossing between sections 20 29 in township 25, range 25. Cement to be furnished by township. Plans may be seen at office of county clerk.

S. H. KING, Clerk.

The Kansas State Board of Health. Reports on baking powder in Bulletin No. 1, that:

"The value of a baking powder depends upon the amount of available leavening gas that is set free in baking."

The analysis shows Calumet to have 12.41 per cent of leavening gas; about 1 per cent more gas than any other high grade powder, and about 50 per cent more gas than the cheap powders.

In buying a baking powder the object is to get one that will leave your baking light, sweet and easily digested. Calumet will do this, because it has more leavening gas than any other powder and it leaves the food free from Rochelle Salts, Alum, Lime, Ammonia or any injurious substance. Therefore, this baking powder is recommended by leading physicians and chemists.

ANOTHER GUESS COMING.

Writer in Collier's Weekly Should Post up a Bit.

It is a well known fact that the opinion of the "effete east" in regard to the states west of the Mississippi river, is not very flattering. About the most malignant case of ingrowing ignorance to the real state of affairs, in Kansas and other western states, has come to light through Samuel Hopkins Adams' "exposure" of the patent medicine fraud, in Collier's Weekly. In a recent article Mr. Adams says, after a lengthy disquisition on the few towns of any importance, represented in the patent medicine testimonial books: "Now Garden City, Kansas, North Yamhill, Oregon, etc., may produce an excellent brand of Americanism, but one does not look for a very high average of intelligence in such communities."

The Globe Republican is not prepared to make any statements in championing the cause of North Yamhill, Oregon, but will venture the assertion that there are a hundred men in Garden City who could skin Mr. Adams a city block in a real test of intelligence and knowledge.

The learned gentleman is no doubt all right in his intentions, but in jumping onto Garden City, as would be the case in any Kansas town, he has lit on the wrong foot.

Of course Garden City, even with all her forest reserves, pumping plants, sugar beets, etc. will never be able to trot in the same class as Dodge City, but Mr. Adams in his verdict on the intelligence of our sister city is blunderingly unjust, and it would be well for him, as well as a number of other writers in the East to get a few pointers before shying any innuendos at the high intelligence of the average westerner.

Monday morning G. W. Molitor came into Bucklin with a grievance, hunted up a Justice of the Peace and laid the case before him. It appeared that some personal property on which Mr. Molitor had a claim had disappeared. He had an idea as to where the property, consisting of two sets of double work harness and one saddle, were concealed. He procured a search warrant, and took Deputy Sheriff, W. D. Cook with him to the place in Wheatland Township where the property was supposed to be concealed. The property was found, where it had been hidden away in various places, but the principal in the affair had flown.
